

How to Make Envelopes

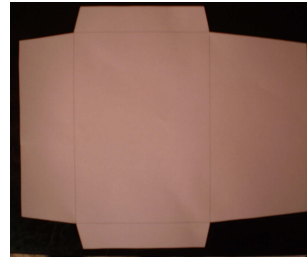

ENVELOPE MAKING KIT - everything you need to make
perfect envelopes in less than **3 minutes!**

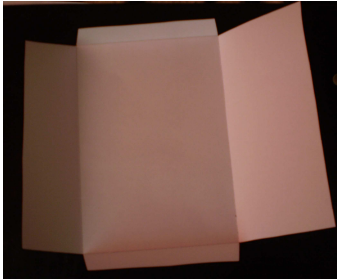

Print, cut, fold, glue and ... it's done!

Here you will find two blank envelope templates - one with dotted lines so that you could easier see where to fold, and another - without any lines. If this is your first envelope, you might want to try the one with dotted lines first.

1 Print out the envelope template.

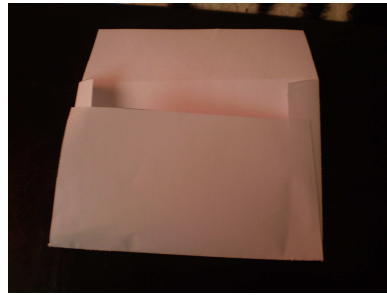

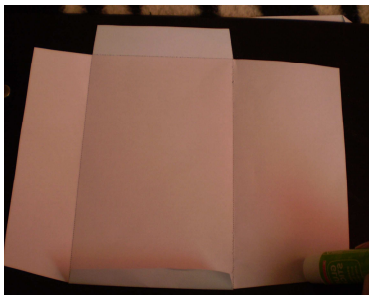

2 Cut out the envelope.

3 Fold up the flaps like shown in the picture.

4 Fold in each of the side flaps, then fold up the bottom flap.

5 Use glue to adhere the bottom flap to the two side flaps. Finally, fold the top flap down.

Success!!! Your envelope is now ready!

The envelope above is taken from our collection of designed holiday envelope templates.
